

Three-dimensional rear account

Demonstrative lessons should be of great importance with their content and relevance. On April 25, senior lecturer of the department "Theoretical and Constructive Mechanics" of the TIAME B.Kh.Urinov held a seminar on "Construction mechanics. Conducted Seismic Surveillance "on the subject" Three-dimensional rear account ". This lecture lesson was organized in groups 2, 6, 7 of the course "Hydroelectric engineering" of "Hydraulic Engineering" faculties. In addition to the professors and lecturers of the departments of the institute, M. Khodjabekov from SamSAI, F.Adilov from ISM and the Academy of Sciences of Uzbekistan also participated in the open lesson.

R.Jumaniyozov, the press secretary of the institute
