

Clubs

Information about the circle of the student scientific society

Table 1

№	Name of the department	Name of the circle	Teacher	Themes	Date
	"Hydrotechnical structures and engineering constructions"	"Young hydrotechnics engineer"	Professor M.R.Bakiev	1. Water resource in Uzbekistan	18.10.2023
				2. The largest canals in Uzbekistan	13.12.2023
				3. Construction of water reservoirs in Uzbekistan	21.02.2024
				4. The world`s largest dams	18.04.2024
				5. Tasks of safety of hydrotechnical installations	6.06.2024
	"Hydrotechnical structures and engineering constructions"	"Young hydrotechnics engineer"	Docent N.Raxmatov	1. The world`s large water reservoirs	25.10.2023
				2. The importance of canal construction in Uzbekistan	20.12.2023
				3. Methods of protection of reservoirs	28.02.2024
				4. The history of canal Dustlik and it`s tasks for today	25.04.2024
				5. Factors influencing on the change of canal design parameters	13.06.2024
	"Hydrotechnical structures and engineering constructions"	"Young hydrotechnics engineer"	Docent Q.Yakubov	1. Requirements for the engineeringof hydrotechnical bases.	1.11.2023
				2. Unnatural bases, soil bases	27.12.2023
				3. Types of foundation and rules of engineering	7.03.2024

“Hydrotechnical structures and engineering constructions”	“Young hydrotechnics engineer”	Docent M.A.Kadirova	1. Flood streams in Uzbekistan	8.11.2023
			2. Flood control hydrotechnical installations	17.01.2024
			3. Effect of hydrotechnical installations on the environment	14.03.2024
			4. Formation of river after construction of bulkhead	2.05.2024
			5. The highest dam in the world.	20.06.2024
“Hydrotechnical structures and engineering constructions”	“Young hydrotechnics engineer”	Docent O.Kodirov	1. Installations for regulation and their types	15.11.2023
			2. Water management organization in Uzbekistan and their structure	24.01.2024
			3. Building architecture and installations	21.03.2024
			4. Water gates	16.05.2024
			5. Energy extinguisher and their types	27.06.2024
“Hydrotechnical structures and engineering constructions”	“Young hydrotechnics engineer”	Professor A.Yangiev	1. Statistics on accidents in water reservoirs around the world	22.11.2023
			2. The importance of law on safety of hydrotechnical installations in Uzbekistan	31.01.2024
			3. Foreign experiences	28.03.2024
			4. Foreign experiences in providing a safety of hydrotechnical installations	23.05.2024
			5. Information on purification of water reservoirs.	
“Hydrotechnical structures and engineering constructions”	“Young hydrotechnics engineer”	Senior teacher T.Muslimov	1. Deformation of concrete and its negative effects	29.11.2023
			2. Increasing the strengthens of reinforced concrete beams	7.02.2024
			3. Categories and marks of concrete today.	4.04.2024

“Hydrotechnical structures and engineering constructions”	“Young hydrotechnics engineer”	Docent D.Adjimuratov	1. Modern constructive materials	6.12.2023
			2. Cement, used for hydrotechnical concrete	14.02.2024
			3. Problems which occur in concrete	11.04.2024
			4. The effect of aggregates on concrete`s quality	30.05.2024

Table 2

№	Name of the circle	The days of the circle	Time of the circle	Room
1.	“Young hydrotechnics engineer”	Every Wednesday of the week	15:00-16:20	B-304
