

Clubs

At the department there is a circle "Young Mechanics" under the guidance of Ph.D., Assoc. K. Khusanov and the circle "Young programmers" under the guidance of Assoc. E. Toshmatova. Under the guidance of Assoc. K. Khusanov in the "Young Mechanics" circle, practical classes are held for talented university students on the basic concepts of mechanics, machine mechanisms, mechanical interaction, principles of operation of mechanisms and other topics. Under the guidance of Assoc. E. Toshmatova in the circle "Young programmers" for talented students of the university organized a training course equipped with modern computers and information and communication technologies, called "Mechanics and Mathematical Modeling" to master the methods of calculating mechanical problems using modern licensed complex programs "ANSYS" and "Workbench", additional practical classes are held every Wednesday and Friday in the laboratory room.
