

# RESEARCHERS

<b>T.r</b>	<b>N.S.P</b>	<b>Specialty code and name</b>	<b>Dissertation topic</b>
1.	Xidirov Sanatjon Kuchkarovich	05.09.07 Hydraulics and engineering hydrology	Hydrodynamic effect of flow on reinforcement elements in the lower reaches of drainage structures.
2.	Ikramov Nazir Mumindjanovich	05.09.07 Hydraulics and engineering hydrology	Influence of heterogeneity of these sediments on the ridge structure of the channel shape.
3.	Nokulov Bexzod Eshmirzaevich	05.09.07 Hydraulics and engineering hydrology	Improvement of hydraulic methods for increasing the reliability of water intake without dams.
4.	Artikbekova Fotima Kuchkarovna	05.09.07 Hydraulics and engineering hydrology	"Evaluation of processes in the inlet channel, taking into account the operational characteristics of pumping stations."
5.	Shodiev Bobur Nurmaxamat o'g'li	05.09.07 Hydraulics and engineering hydrology	Increasing the service life of reservoirs
6.	Voksidov Oybek Farxodjon o'g'li	05.09.07 Hydraulics and engineering hydrology	Improving the efficiency of centrifugal pumps
